DETAILED ACTION

The following action is in response to the amendment received April 18, 2008.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 23 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Mueller('257). Mueller discloses a device comprising a drive train having a drive wheel 40, a first clutch 60 comprising a fluid friction clutch and a drive shaft 76, which is capable of driving any of a number of accessories, including a coolant pump. The device of Mueller further comprises a second clutch, which comprises an electromagnetic clutch 48, which is connected to the drive train in parallel to the fluid friction clutch. The drive wheel 40 is a single pulley having a web 96. The web, insofar as defined, can be considered a central web since it is radially centrally located relative to the belt-engaging portion of the pulley. The fluid friction clutch and the electromagnetic clutch each comprise a driving disk (92 and the axially facing web of pulley 44), which can be driven by pulley 40. The fluid friction clutch and the electromagnetic clutch are arranged on opposite sides of the web 96 and the driving

disks are fastened on the drive shaft 76. The pulley 40 is configured as an input to clutch 60 and clutch 48 since it is connected to and driven by input shaft 38.

Allowable Subject Matter

Claims 13-22 are allowed.

Response to Amendment

The amendment received April 18, 2008 overcomes the rejection based on 35 USC 112, 2nd paragraph, set forth in the previous Office action. Accordingly, the rejection under 35 USC 112, 2nd paragraph, is withdrawn.

Response to Arguments

Applicant's arguments filed April 18, 2008 have been fully considered but they are not persuasive. Applicant points out that, for a claim to be anticipated, each and every element of the claim must be found in the reference. As set forth in the above rejection, every element of claims 23 and 24 are found in the Mueller('257) reference. Accordingly, the rejection of claims 23 and 24 is believed proper.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
